

OHIO A GLOBAL HEALTH CARE LEADER

THE FUTURE OF BIOHEALTH IS HERE

Ohio is home to the world's best adult and pediatric care providers. Health care systems like Cleveland Clinic and Cincinnati Children's Hospital Medical Center give corporate leaders and entrepreneurs access to world renowned thought leaders and research facilities to expedite the commercialization of innovative ideas. Industry leading academic and clinical research entities support Ohio's robust health care systems, attracting some of the most respected brands and trusted leaders. This exceptional combination of resources helps ensure Ohio's health care industry is at the forefront of advancing the practice of medicine efficiently and cost effectively, and ultimately improving the quality of life and care for people worldwide.

LEARN MORE ABOUT RECENT OHIO SUCCESS STORIES

ASSUREX HEALTH

Using a simple cheek swab, Assurex Health, acquired by Myriad Genetics, provides personalized genetic analysis ahead of prescribing mental health drugs for the best chance of success.

ABBOTT NUTRITION

Founded in Ohio in 1903, Abbott Nutrition is headquartered in Columbus and recently opened a \$270 million, 240-employee manufacturing facility in Tipp City, Ohio. The plant produces two of the company's fastest growing adult nutritional brands.

ENABLE INJECTIONS

Imagine a world where one can self-administer a biological drug through a bolus injector discreetly and from the convenience of one's home. It's in the name. Conceived, developed and made in Ohio. For humanity.

APRECIA PHARMACEUTICALS

Aprecia developed the first 3-D printed medication to win FDA approval and is manufactured in Ohio. ZipDose® Technology is Aprecia's unique delivery platform leveraging 3-D printing for easier administration of high-dose medications.
