- Institutions
- Media
- Project managers
- Property managers
- RE managers
- Purchasing managers
- Retail managers
- Researchers and academics
- Students

Why attend the conference

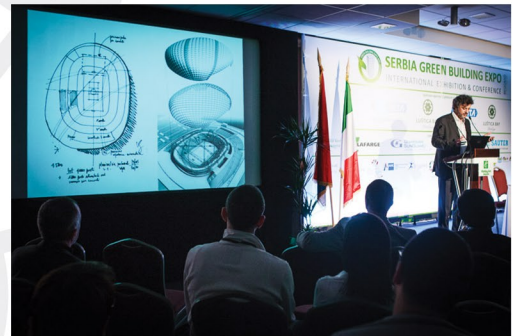

The Green Building Expo and Conference is the most important event in South-East Europe dedicated to the sustainable building industry.

Only by attending the presentations of our speakers, you will discover rigorous scientific journeys through the technologies associated with Green Buildings.

The most famous international speakers will be guests during three days of the Green Building Expo and Conference and they will offer you the opportunity to learn about the latest innovations in technologies and on the market of "green" buildings.

During the Conference within the Fair, you can also participate in training courses held by professionals with great references who will share with you their extensive experience in the field of the most famous international building certification protocols (LEED, BREEAM, DGNB, etc.).

Do not miss the opportunity to make contact with the best architecture, engineering and construction companies and with professionals from around the world. This is a unique opportunity to participate directly in the sustainable construction market.

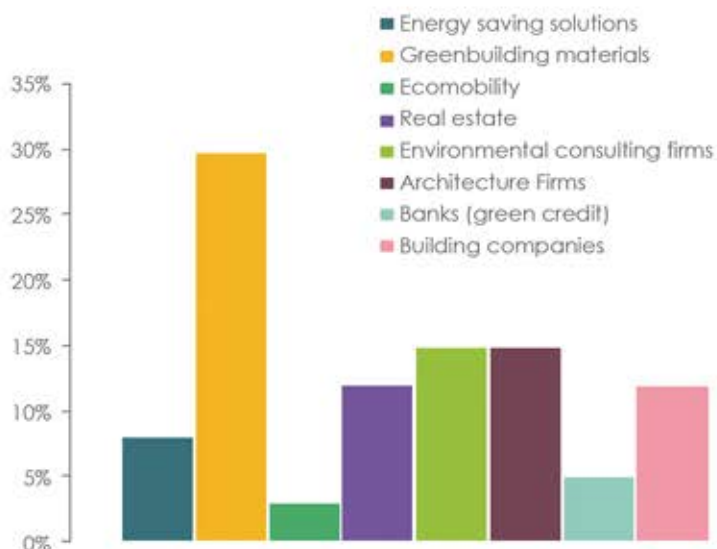

Opening ceremonies with authorities: 2013 H.E. the USA Ambassador in Serbia, 2012 the Serbian Minister of Environment
