

EU-Africa flagship projects for 2023

Partnerships on Digital, Climate and Energy, Transport, Health, Education and Research

Tartifer ships of Digital, chiliate and Energy, Transport, Treatin, Education and Research

#GlobalGateway #TeamEurope March 2023 **Egypt** Regional - Central and Regional - Southern Neighbourhood - Medusa cable Construction of a **Eastern Africa - Renewables** Medusa submarine optical fibre cable in the Mediterranean will high-voltage undersea connect Northern African countries with European countries to Construction of Ruzizi III hydropower electrical interconnection increase the speed of internet in Northern Africa universities. plant for DRC, Rwanda and Burundi. between Egypt and Greece Modernisation of the Alexandria Area Control Centre Production of Methanol for Morocco ····· Tunisia green shipping • Extension of 37 km of the Construction of hybrid and Construction of a first tramway network in the Rabatsolar power plants and undersea high-voltage Salé-Témara agglomeration electricity cable extension of the energy interconnection (ELMED) network: Construction of hydrogen between Italy and Tunisia Construction of Bus Rapid power plant photovoltaic power plant Transit system in Nairobi Gorou Banda (30 MW) Production of methanol for Construction of optic fibre green shipping · hybrid photovoltaic plant in infrastructure and last mile **Democratic Republic** Agadez (19 MW) connections of Congo North backbone of the Mauritania ····· Nigeria - Niger - Benin - Strategic partnership • Construction of data centre in **Burkina Faso Interconnection** on critical raw materials Djibouti Nouakchott and submarine (330 kV) being explored cable Doubling the capacity of the desalination plant, construction of a solar energy plant Senegal ······ Djibouti airport development Construction of Bus Rapid project Transit system in Dakar Development of Dakar Bus **Public Transport Network Regional - Sub-Saharan** Africa - Health Gambia Manufacturing and access to Expansion & rehabilitation of vaccines, medicines and health Port of Banjul technology products in Senegal, Rwanda, Ghana and South Africa. Cape Verde Construction of Pump and Storage Facility in Santiago Namibia island Construction of 85 MW solar PV plant combined with Guinea Bissau electrolysers Rehabilitation of the road Bissau • Implementation of partnership / Safim - Sao Domingos - Mpack on raw materials value chains - Senegal border – 115 km and renewable hydrogen Côte d'Ivoire **Burundi** Development of solar power Improving access to electricity plant in Boundiali, Serebou and in Bujumbura Extension, reinforcement and Madagascar upgrading of networks 320 MW increase of renewable energy production with various subprojects Benin ... Rehabilitation **Tanzania** Allada-Dassa road Construction of Kakono • Upgrade of large-scale solar Hydropower Plant power plant and photovoltaic minigrids by the West African Mozambique Power Pool (WAPP) Construction of National Zambia Control Centre for Energy Rehabilitation of the Infrastructure, improvement Construction of Yaounde Development of generation Kariba Dam to minimise of the reliability and bypass and evacuation infrastructure the risk of failure sustainability of the power for on-grid renewable energy supply projects Republic of Congo • Invest on digital literacy Angola South Africa and skills for youth to foster Construction of six small Extension and upgrading of • Establishment of a green and Expansion of a biogas plant digital transformation hydropower plants of a total of the infrastructures of the digital corridor between the (Bio2Watt project) producing (VaMoz Digital) approximately 2MW autonomous Port of Portuguese Port of Sines and biogas from animal waste and Creation of employment Pointe-Noire the Angolan Port of Barra Do other waste sources Construction of about 150 small opportunities in the energy photovoltaic-hybrid mini-grids Construction of the new Dande industry for youth in Cabo industrial and artisanal fishing Provision of combi-tracks solar Delgado (pilot vocational training initiative + EMPREGO) energy and horticulture

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

Regional - Sub-Saharan Africa - NaturAfrica

Development of Congo Basin forest ecosystems,

Transhumance landscapes in Central Africa, West

Africa, Eastern Rift savannahs and watersheds,

Africa Forests, Sudano-sahelian savannahs of West

Transfrontier conservation areas of Southern Africa.
