

ISRAEL HLS & CYBER 2018

Today's Technology for Future Security

THE 5TH INTERNATIONAL CONFERENCE & EXHIBITION

NOVEMBER 12-15 | 2018
HALL 2 | TEL AVIV CONVENTION CENTER

THE CHALLENGES

With growing Homeland Security (HLS) challenges, rampant terror attacks becoming a major national and public security concern, natural and manmade disasters, and criminal activity that span the physical and cyber domains, nations that have dealt with some of those risks in the past now face exacerbated threats that require new solutions.

THE SOLUTIONS – HLS INDUSTRY

The Israel Export Institute, HLS & Aerospace Department represents over 400 exporting companies in the homeland security arena. Israeli HLS companies offer technologically advanced, field-proven products and solutions that are among the most innovative anywhere. They are successfully partnering with key world players to ensure public safety, protecting air and sea ports, borders, government installations, financial institutions, recreation centers, public venues and more.

The department works with foreign government ministries and their agencies, as well as with industry bodies, to promote private-industry joint ventures and international partnerships.

TECHNOLOGY VERTICALS COVERED

Big Data | Biometrics & Access Control | Command & Control (C&C) Consultation | Detection of Explosives & Chemicals | Intelligence Processing | Lawful Interception | Perimeter Security | Security Communication Systems | Training & Simulation | UAVs, Drones & Anti-Drones | Unmanned Systems & Robotics | Vehicle & Baggage Inspection | Video Analytics & Surveillance | Tracking & Identification

WHAT TO EXPECT AT ISRAEL HLS & CYBER 2018

As malicious threats become more comprehensive as well as more effective and affordable to perform, security grows in importance to the business sector as corporations consider physical and cyber security vital to their infrastructure development.

THE ISRAEL HLS & CYBER INTERNATIONAL CONFERENCE HIGHLIGHTS SECURITY SOLUTIONS FOR:

CROWD PROTECTION & MEGA EVENTS

EMERGENCY PREPAREDNESS & RESILIENCE

CYBER SECURITY PROTECTION

CRITICAL INFRASTRUCTURE

BORDER CONTROL

AIRPORTS & AVIATION SECURITY
