

**POGEE**

# 18th International Exhibition of The Energy Industry 2024

📅 08 - 10 MAY 2024

📖 EXPO CENTRE LAHORE

The 18<sup>th</sup> Pakistan Oil, Gas & Energy Exhibition (POGEE - <https://pogeePakistan.com>), to be held on 8 - 10 May 2024 in Lahore (the second largest industrial, commercial and agricultural hub in Pakistan), presents an ideal ground for the Oil, Gas and Energy stakeholders to meet key decision makers from national and international public and private sector companies in Pakistan.

## Show Highlights from the Last Edition of POGEE 2019

**217 Exhibitors**

**27 Countries**

**8000 visitors**

**4000m<sup>2</sup> Exhibition Space**

Oil & Gas are the two major components of the Energy Mix contributing almost 80% share to the 64.7 Million TOE of energy requirement in the country. To cater the increasing energy needs in all sectors, Government is pursuing policies of attracting private investment. As a result, the Oil & Gas sector has attracted FDI of USD 251 Million in 2021-22. Moreover, Pakistan is ranked as having the 6th largest coal reserves in the world with 6% share in the Energy Mix. Projects are being launched on Government & private level to explore, exploit and use this cheap indigenous energy resource for power generation in the upcoming years.

Pakistan has been facing acute shortfall of electricity from 5000 MW – 7000 MW, which is being addressed by the government on priority basis. FDI in Energy sector rose to USD 911 Million in 2021-22.

By injecting US\$ 34 Billion through CPEC, energy projects are considered as main objectives to facilitate and promote development of Energy Sector in Pakistan (including renewable energy solutions), moreover the government has also planned to start work on major energy projects to overcome shortfall of energy beside providing inexpensive electricity to consumers, industries and agriculture sectors.

## Main Thematic Sections of the POGEE 2024

Power Generation solutions  
Power Distribution solutions  
Coal and coal technology

Renewable Energy Solutions  
Storage and Transportation  
Exploration and Drilling Technologies

Biogas, Biomass, Solar, Wind Energy  
Instruments and controls  
LPG and LNG

## Major Areas of Interest for Belgian companies

Power Generation & Transmission  
Equipment  
Equipment for Petrochemical &  
Refinery sector  
Pumps, Valves, Pipes and Fittings for Oil  
& Gas

Renewable Energy (Solar, Biomass,  
Wind, Hybrid) Solutions  
Safety, Security & Control Solutions for  
Oil & Gas and Energy  
Pipeline Protection & Surface  
Treatment for Oil & Gas Sector

Chemicals, Lubricants, Coatings for Oil  
& Gas sector  
Furnaces, Boilers & Heat Treatment  
Equipment  
Used & Second-Hand Machinery for  
Construction & Civil Engineering

## Services offered by the Post in Islamabad to Participating Belgian Companies

Targeted promotion of participating Belgian companies  
before and after the event  
Prominent display of catalogues/brochures of participating  
companies at the Belgian Pavilion  
Efficient follow up of all contacts established during the  
Exhibition

Organization of B2B meetings in case of personal visit by  
Belgian companies  
Mailing of documents and contact details of participating  
companies to interested local companies  
Presentation of participation companies in our newsletter  
sent to more than 500 companies
